

# Case Study

## CENTRAL HIGH SCHOOL

Location:  
Hampshire, Illinois

Scope:  
Provide space planning,  
materials, finishes, and furniture  
solutions

Space:  
5,000 sq. ft.

### THE PROBLEM:

Central High School's students were not interested in studying in the library. The administration wanted a space to accommodate and inspire students to utilize the many resources they have in their library.

### THE SOLUTION:

The Rieke Office Interior's team worked with the project architect and client to provide solutions that were durable, aesthetically pleasing, and gave a sense of comfort and relaxation. The library became a space where the students wanted to spend time.
